# 6 reasons to choose Daylight!

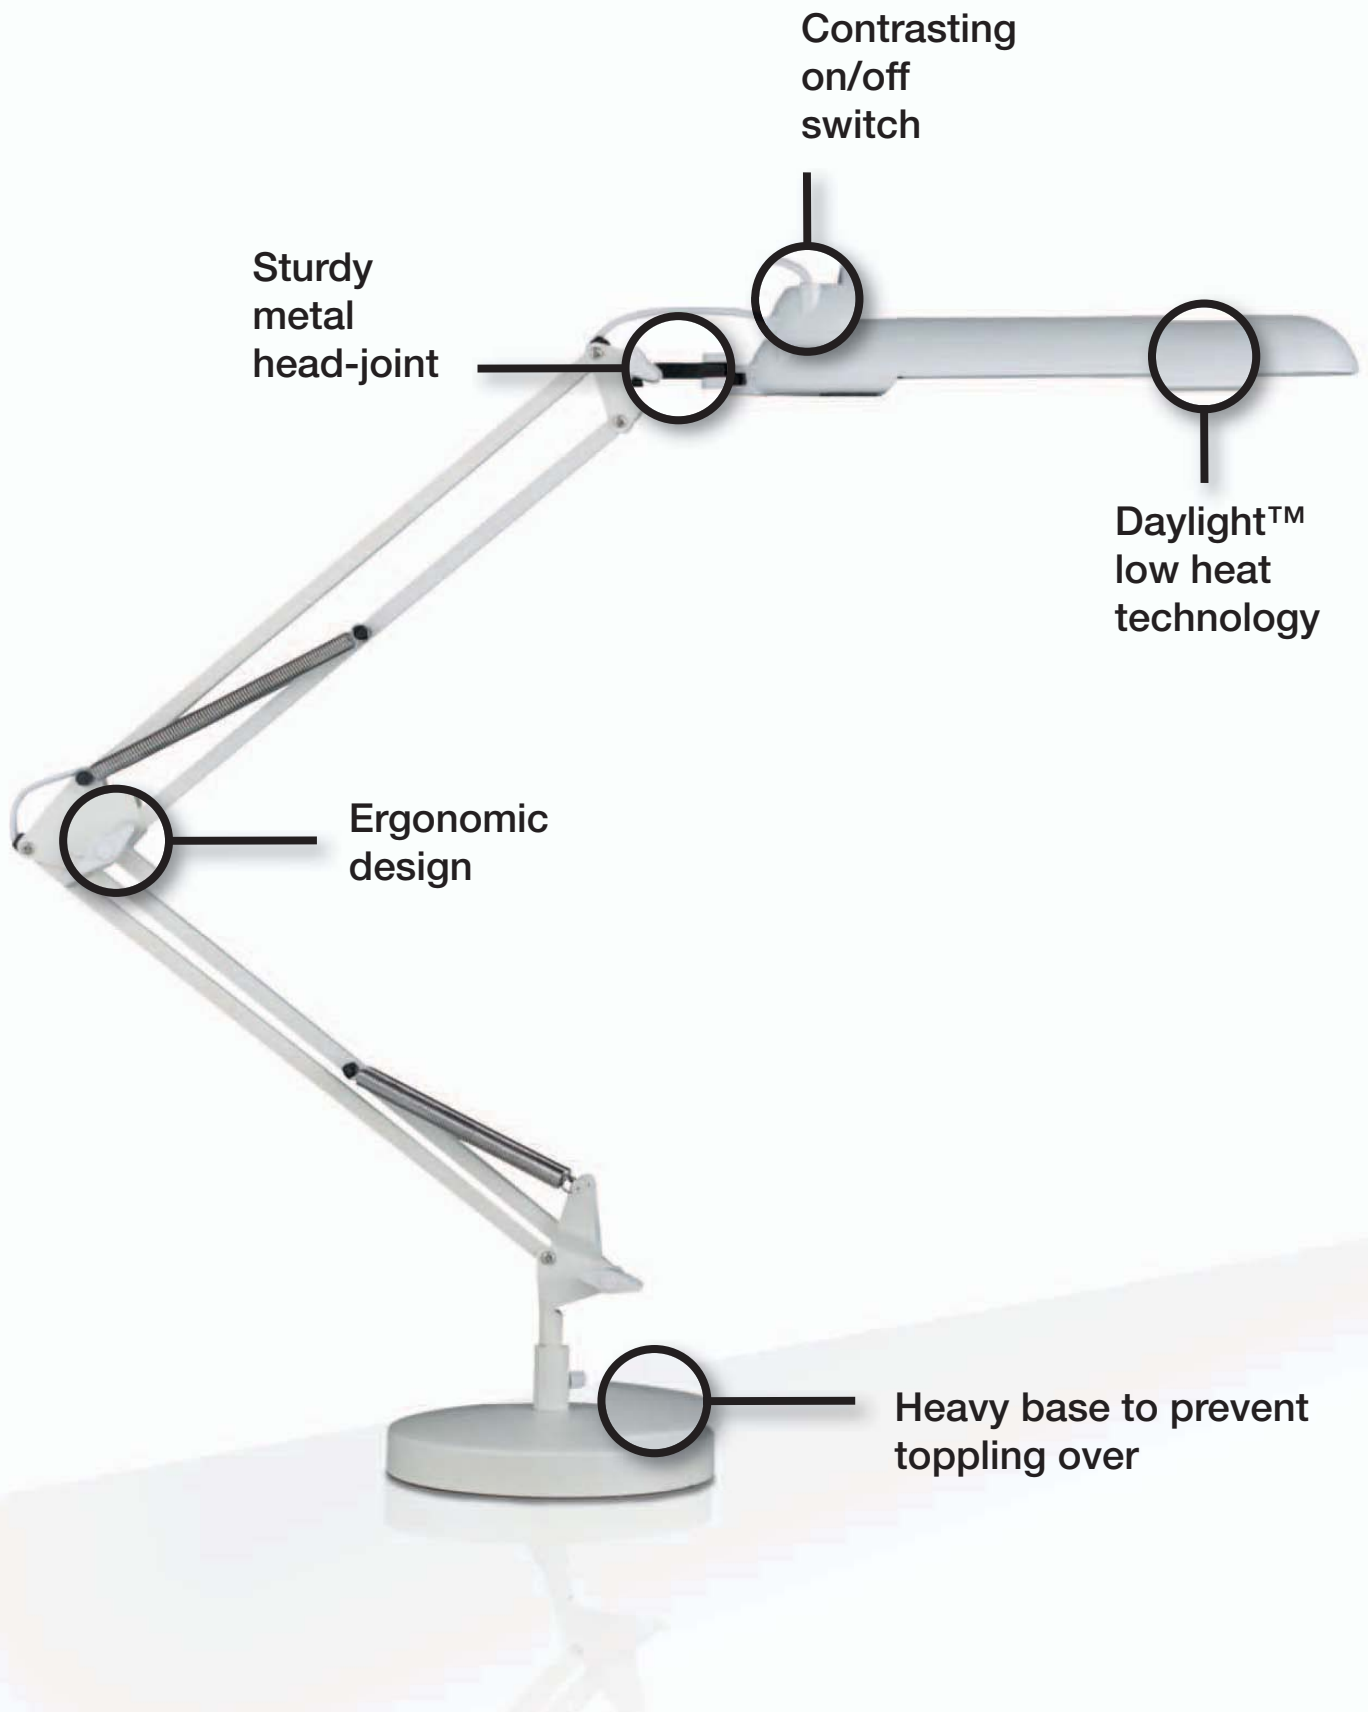

All Daylight™ lamps are fitted with high quality Daylight™ bulbs or tubes! Therefore every single person who uses a Daylight™ lamp benefits from the unique features of this special form of light - all of which are particularly important to people who are experiencing sight loss or are partially sighted.

- 1 Daylight™ lamps have been researched and designed specifically for the low vision market.
- 2 Daylight™ lamps combine ergonomic design, complete flexibility and safety features with exceptionally high quality standards.
- 3 Daylight™ light significantly increases contrast and clarity.
- 4 Daylight™ light reduces glare and is the most comfortable light for your eyes.
- 5 Daylight™ bulbs and tubes are safe since they do not harm your fingers when you accidentally touch them.
- 6 Daylight™ lamps are practical and life enhancing pieces of equipment.

## Low Vision Partners

Daylight™ cooperates with several well-known organisations for the research of the lamps and accessories. We would like to specially thank the **Royal National Institute for the Blind (UK)** and **Optima Low Vision Services** for their expert advice and continued support to improve our products.

# TASK LAMPS

Task lamps are designed especially to work at a desk. Our portable lamps can also be used to prepare and see your meal, to look in a cupboard or simply to read a book while sitting at a table.

## ◀ PL DESK LAMP

D33040, White

D33041, Black

---

- 11w Daylight™ tube (60w equiv)
- Weighted table base
- 360° degree rotation
- Contrasting on/off switch

Read for longer in comfort with this fantastic PL desk lamp. The lamp is ideal for reading and writing at a table. It rotates 360° and the weighted base makes it a very safe lamp. It comes complete with 11w Daylight™ PL tube, diffuser, table base and table clamp. It also features an on/off switch in contrasting colour.

## TWIN FLUORESCENT ▶

D30350

---

- Most powerful light of the range
- 2 x 15w Daylight™ tubes (160w equiv)
- Internal spring arms

With 2 x 15w, the Twin Fluorescent is the most powerful lamp of our range. Perfect to lighten up a large work area or a desk, this lamp features internal springs arms to allow you to direct the light where you need it and without any effort.

## ◀ CLASSIC PORTABLE LAMP

D33150

---

- 13w Daylight™ tube (75w equiv)
- Electronic ballast/Flicker-free
- Lightweight and foldable

A Daylight™ classic. Mains operated, its lightweight and compact design folds neatly together making this the perfect lamp for reading, to help you see better in the kitchen and for looking in cupboards and wardrobes. A specially designed padded carry bag is available separately (D62000). See page 14.

## PORTABLE LAMP ▶

D33507

---

- 13w Daylight™ tube (75w equiv)
- Electronic ballast/Flicker-free
- Lightweight and foldable

Daylight's best-selling portable lamp comes in a new design and a beautiful satin silver finish. This mains operated lamp has a bright 13w Daylight™ tube, a long lead and is lightweight and compact. It folds neatly together making it conveniently portable and a great lamp for reading, in the kitchen and for looking in cupboards and wardrobes. A specially designed padded carry bag is available separately (D62000). See page 14.

## ◀ RECHARGEABLE PORTABLE LAMP

D38007

---

New style for 2008

- Gives 3 hours of light on batteries
- 13w Daylight™ tube (75w equiv)
- Electronic ballast/Flicker-free
- Rechargeable batteries included

The lightest 13w portable lamp that comes supplied with high performance rechargeable batteries. It's stylish, compact and perfect to take with you. It gives up to 3 hours of Daylight™ light or can be mains powered. And to charge it, simply plug it in and soon it's ready to go again! A specially designed padded carry bag is available separately (D62000). See page 14.

## DAYLIGHT™ TABLE TOP LAMP ▶

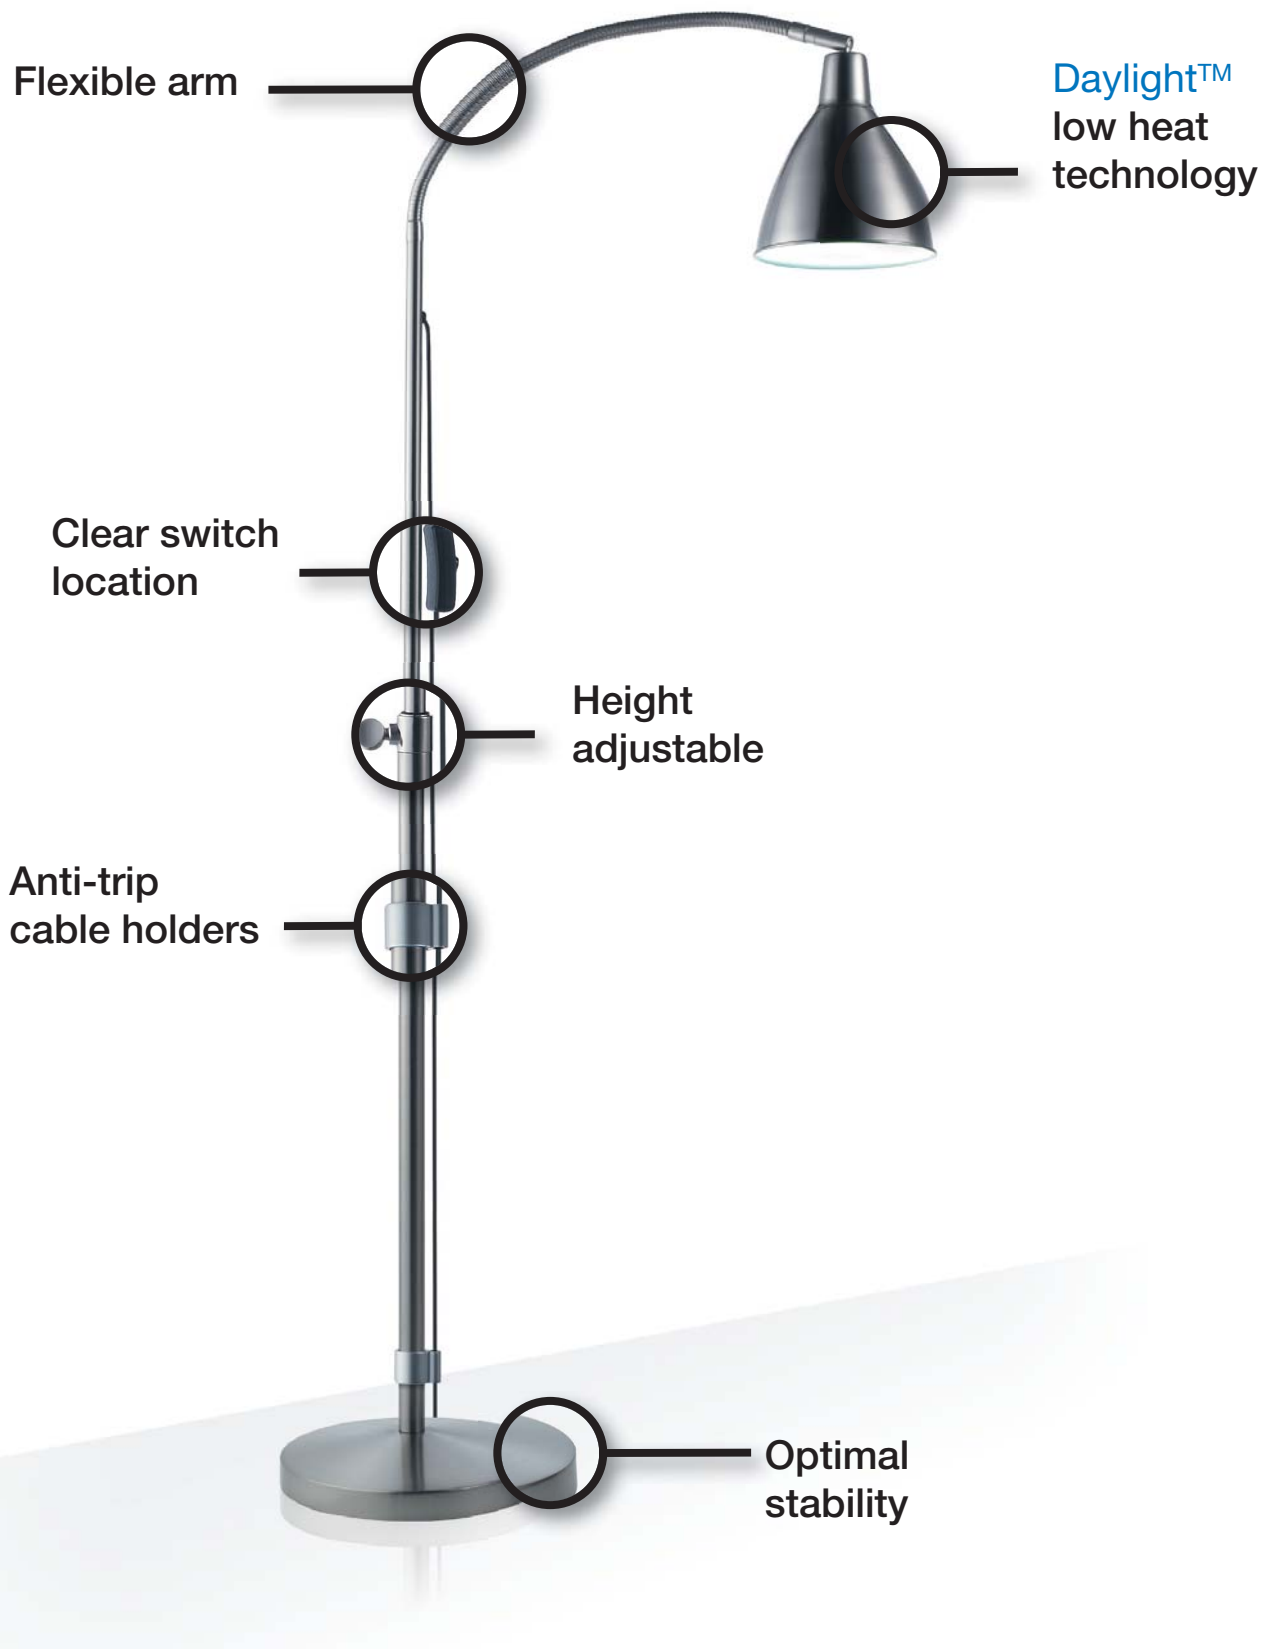

D23020

---

- 18w Daylight™ tube (100w equiv)
- Flexible arms for easy positioning
- Removable magnifier included

This practical reading lamp comes in a clean white finish with the best low heat bright 18w Daylight™ tube and fine polished acrylic lens to read in comfort and enjoy any detailed activities. Separately available is a clamp on flexible arm to hold your own magnifier (D51020).

# FLOORSTANDING LAMPS

These lamps are perfect to use whilst sitting on a sofa. With their flexible arms, you can direct the head exactly where you need it.

## ◀ FLEXI-VISION FLOOR LAMP

D31067

---

- 20w Daylight™ bulb (100w equiv)
- Height adjustable
- Anti-trip cable holders

The Flexi-vision™ Floor Lamp combines all the best features to make it the ultimate reading lamp. The 20w Daylight™ energy saving bulb reduces glare and improves contrast allowing you to read and write for longer in optimal comfort. The Flexi-vision™ Floor Lamp is also one of the safest lamps on the market with clear on/off switch location, anti-trip cable holders and low heat shade.

## DAYLIGHT™ FLOORSTANDING LAMP ▶

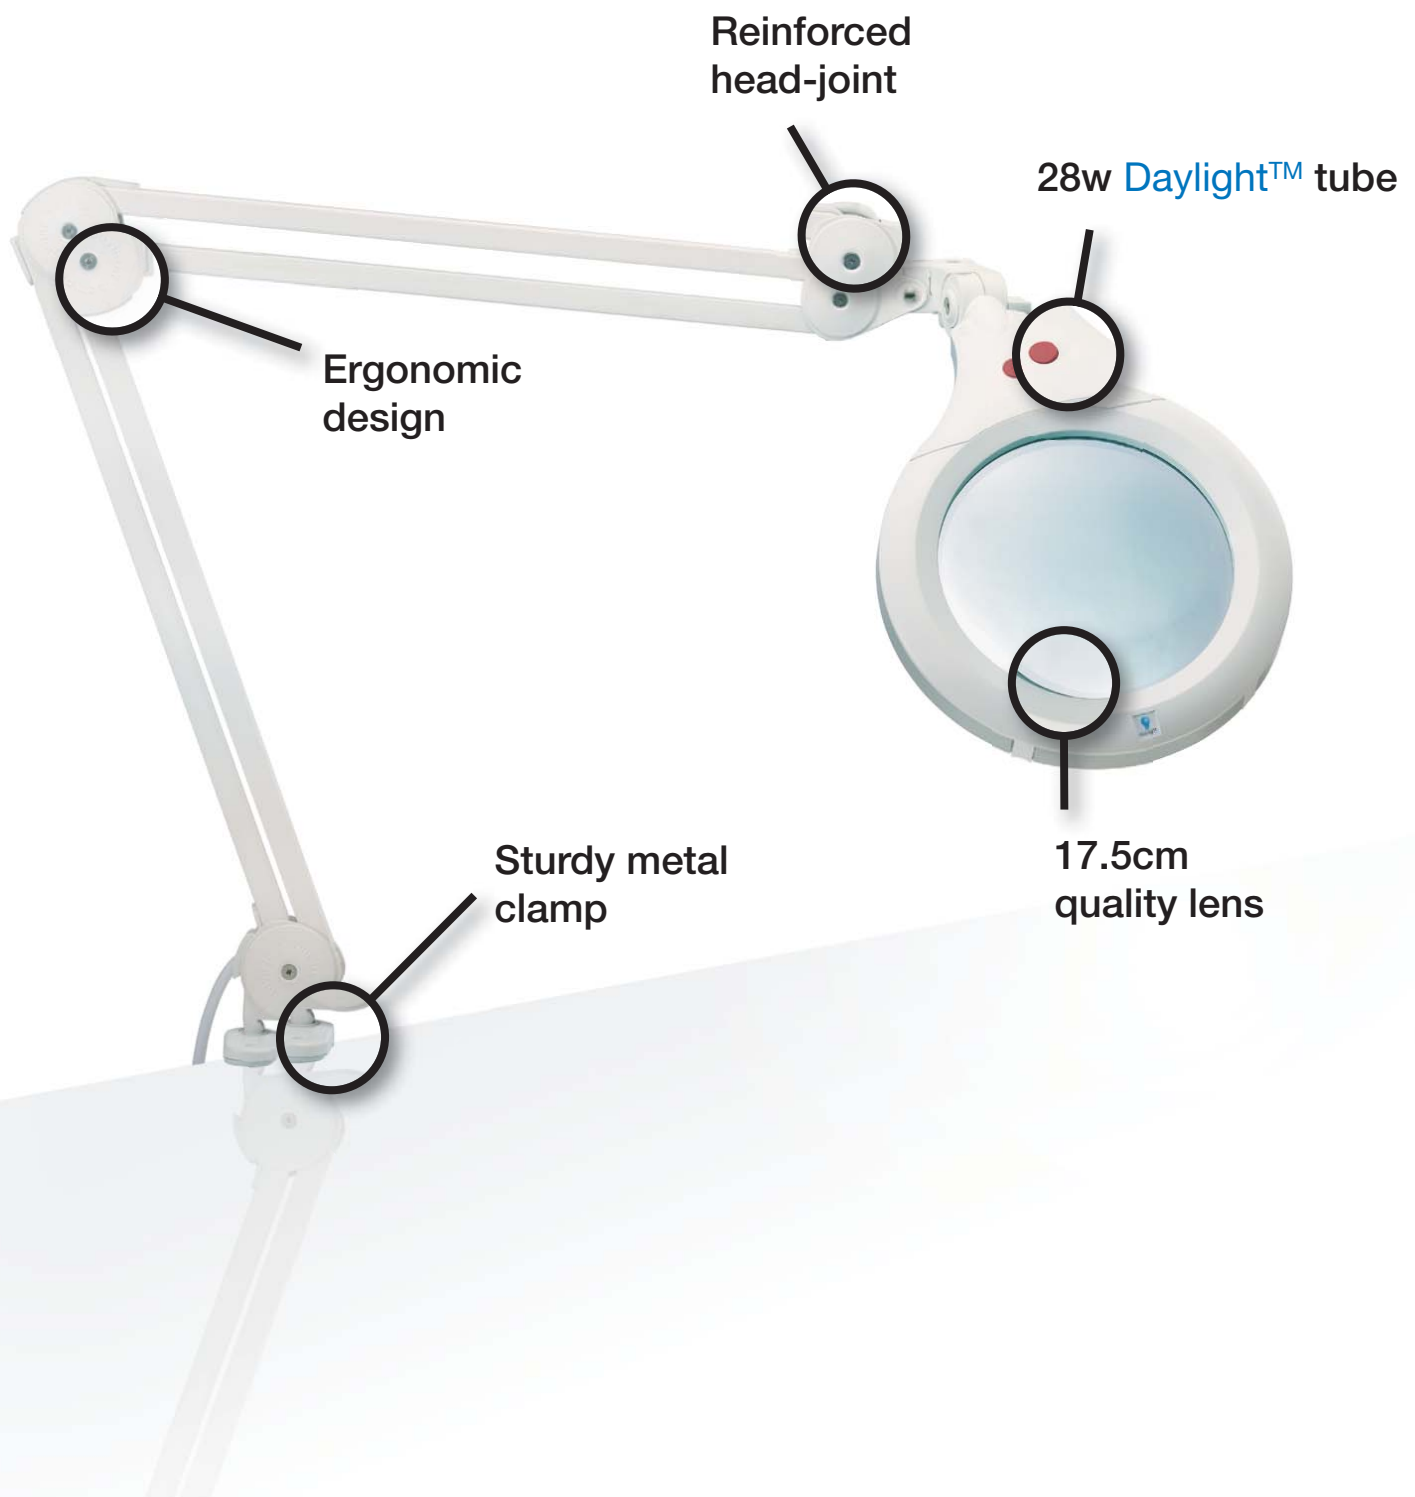

D23030

---

- 18w Daylight™ tube (100w equiv)
- Flexible arms for easy positioning
- Removable magnifier included

This practical floorstanding lamp comes in a clean white finish with the best low heat 18w Daylight™ tube and fine polished acrylic magnifying lens. Its handy wheeled base means it works where you do and with its revolutionary swan neck, you can position the light to come over your shoulder. A clamp on flexible arm to hold your own magnifier is available separately (D51020).

# MAGNIFYING LAMPS

The combination of a wide lens plus a powerful Daylight™ tube means these lamps are perfect for reading small prints in optimal comfort for hours.

# ◀ ULTRA-SLIM MAGNIFYING LAMP

D22020-01

---

- 28w Daylight™ tube (150w equiv)
- Large 17.5cm quality lens
- Electronic ballast/Flicker-free

The **NEW** Ultra Slim magnifying lamp comes with a completely redesigned arm and new head-joint to guarantee optimal flexibility. This lamp combines the largest precision glass lens (17.5cm) with the strongest Daylight™ (28w) so you can see more of your book, and read for longer in comfort. It also features a flicker-free electronic ballast for the best quality of light. Three extra lenses are also available separately. See page 13.

# DELUXE MAGNIFYING LAMP ▶

D23040-01

---

- 2x13w Daylight™ tube (140w equiv)
- Large 19x17.5cm quality lens
- Electronic ballast/Flicker-free

The **NEW** Deluxe Magnifying Lamp comes with a completely redesigned arm and new head-joint to guarantee optimal flexibility. This magnifier has the widest 19cm glass lens so that you can see more of your book and read for longer in optimal comfort. It includes two powerful 13w Daylight™ low heat tubes and a flicker-free electronic ballast for the best quality of light. Three extra “click” lenses are available. See page 13.

## ◀ SLIMLINE MAGNIFYING LAMP

D22030-01

---

- 22w Daylight™ tube (120w equiv)
- Electronic ballast/Flicker-free
- 2 lenses included (1.75X and 2.25X)

This unique magnifying lamp in our modern slimline design combines all the features you need. This product is supplied with a 22w Daylight™ energy saving bulb and 2 separate lenses so you can read for longer in optimal comfort. The lenses can easily be changed without any tools necessary.

## MAG LAMP ▶

D21000-01

---

- 11w Daylight™ bulb (60w equiv)
- Ultra lightweight, easy to move
- Excellent value for money

The practical, clean white magnifying lamp comes with a semi-rimless 13cm precision acrylic lens with removable lens cover to give you a wider viewing area and an 11w Daylight™ bulb. As this lamp is very light, you can move it easily and position the light output exactly where you need it.
